

# Bank of Edmonson County

Bank of Edmonson County has been monitoring the impact that the Coronavirus (COVID-19) is having on a global level, across America and most importantly, right here at home. Please know that we place the highest level of importance on the safety of our employees, families, clients and everyone with whom we do business.

Beginning March 30, 2020 until further notice, our banking hours of operation will change. All banking offices will be operating drive-thru only from 8:00 AM until 4:00 PM Monday-Friday. During this time, there will be no Saturday banking services offered. We encourage you to take advantage of the following services that will enable you to attend to your banking needs even when our doors are closed:

- Online Banking enables you to view and manage your accounts.
- Mobile Banking, available on Android and iOS, is an easy and convenient way to access and manage your accounts on the move.
- Mobile Deposit allows you to deposit checks from virtually anywhere.
- Bill Pay is an easy way to pay your bills. This service is available through both our mobile and online banking service.
- In addition, ATMs are located at each of our banking offices.
- Each banking branch also has a night depository that can be used 24/7.
- Bank by Phone at 1-800-530-8536

We will continue to monitor the Coronavirus situation as well as recommendations from the Center for Disease Control (CDC), World Health Organization (WHO) and our federal, state and local governments. If it becomes necessary to make additional changes to the banking schedule listed above, we will keep you up to date and post changes to this site.

We sincerely appreciate your patience & cooperation during this everchanging situation.
